

Angel Road Infant School News

'Grassroots' bring their music and dance to our school this Friday.

Forthcoming Events.....

Please note the following events happening here at Angel Road Infant School over the coming weeks.

This Friday the school is being visited by 'Grassroots' a dance group from Zimbabwe. 'Grassroots' have visited the Junior School before and been very well received. They have a special programme for Infant Schools and after performing to all of the children in assembly they will later carry out a workshop with year 1 and 2 classes. The children will have the opportunity to dance, sing and talk to the performers about their country and traditions.

Visit to see Ratatouille at Hollywood Cinema

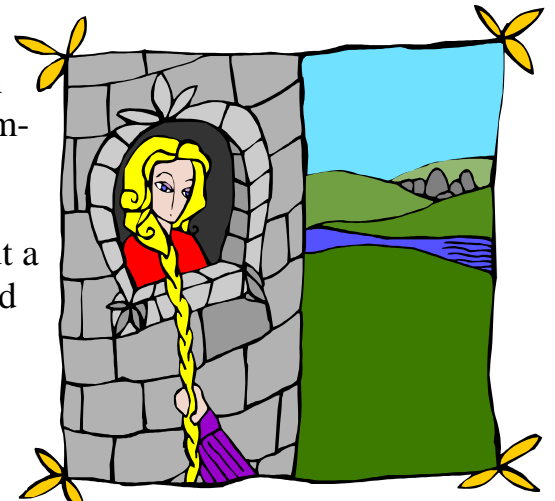

Next Thursday morning 23rd October years 1 & 2 are visiting the Hollywood Cinema in Anglia Square to see a special screening of this popular Disney film. The children have been asked along to participate in a healthy eating workshop that follows the film. All children require a packed lunch on the day. Free school meal children will have one provided.

A theatre group will be performing to the whole school on the morning of Wednesday 5th November. The theatre company will be performing a production of Rapunzel.

Many of you may remember this traditional fairytale about a girl imprisoned in a tower who uses a very unusual method to help her prince rescue her!

Please note all of these events are free !!

Information About the Start of the School Day...

Could I please clarify a misunderstanding that may have occurred about the start time of our school day. The class room doors will be open to receive children from **8.40am** onwards. We ask that children be in school by **8.50am** and that they are sitting ready in class to begin their school day at **8.55am**. The gates through to the classrooms are locked again at 8.55am.

In the event that pupils arrive after 8.55am they will unfortunately have to be recorded as late. Your cooperation in ensuring that your child arrives ready to start the school day at the appropriate time is important and greatly appreciated. Apologies to parents of reception children who have already received this invitation.

Improving the School

We are continuing to improve the equipment available to children and the corridor areas. You may have noticed that in each corridor there is now a dedicated computer area each with 15 computers. Over the next few months we will be working hard to decorate these areas with pupils' work and also provide purpose built library areas to further complement the corridor areas.

www.angelroadinfant.co.uk

Our new website is slowly progressing and we are very gradually building up a portfolio of news, information and pupils' work for you to enjoy. It is still work in progress but if you fancy a peek at the progress made so far do visit.

Thanks for making every effort not to bring pushchairs through the school building. With your continued support we can keep our school looking clean and smart for all to enjoy.
